

Product: ENTOMELA 75SL Insect Attractant

**1. Product - Company name**

ENTOMELA 75SL: Insect Attractant  
Greek registration N° 9074/2015  
Company: N.G.Stavrakis – PHYTOPHYL  
AVEROF 16 ATHENS ,10433 - GREECE  
Tel:0030 010 8217319  
SHIMATARI VIOTIA 32009 - GREECE  
Tel: 0030 02620 58670

**2. Possible Hazards.**

None

**3. Composition / information on ingredients**

ENTOMELA 75SL is Beet molasses-Urea hydrolysate  
Active substances approved under Regulation (EC) No 1107/2009

- Urea 25% w/w
- Hydrolysed protein (Crude protein eq.) min 75% w/w

It has not any animal origin ingredients and is free of GMO (genetically modified organisms)

**4. First aid measures**

After inhalation of thermal degradation products: keep patient calm, remove to fresh air.  
On skin contact: wash with soap and water.  
On contact with eyes: wash affected eyes for at least 15 minutes under running water with eyelids held open.  
On ingestion: rinse mouth and then drink plenty of water.

**5. Fire fighting measures**

Incombustible.  
Suitable extinguish media: Water  
Fire/explosion fumes should not be inhaled.  
Special protective equipment: In case of fire wear a self contained breathing apparatus.

**6. Accidental release measures**

Personal precautions: Avoid contact with eyes.  
Methods for cleaning up: Wash with water.

**7. Handling and storage**

Handling: No special measures necessary provided product is used correctly.  
Storage: Keep in dry place.

**8. Exposure controls and personal protection**

Hand protection: suitable protective gloves  
Eye protection: protective goggles  
General safety and hygiene measures: The usual precautions for the handling of chemicals must be observed.

Product: ENTOMELA 75SL Insect Attractant

## **9. Physical and chemical properties**

Form: Syrupy liquid

Colour: Deep reddish brown

Odour: Specific odour

Combustibility: is not combustible

Flashpoint: is not flammable

Explosive properties: is not explosive.

Oxidizing properties: is not an oxidizing agent and has not fire-propagating properties

pH normal value : 6.75

pH range 6.2-8.0(7.3)\*

Dry matter: app. 74-82 %

Insoluble in water: max 0,7%

Density normal value: 1.35 (Density specification range 1,31-1.39).

\* pH value 7.3 may appear after 1 year of storage. The maximum pH value 8.0 may appear after two years of storage with no other effect on specifications and no significant effect on application as when diluted in application rates gives lower pH.

## **10. Stability and reactivity**

Conditions to avoid: Decomposes on heating.

Gaseous product of degradation can be given off if the product is greatly overheated.

Hazardous decomposition products: ammonia

## **11. Toxicological information**

The product is not known as toxic or harmful on acute route of exposure.

Skin irritation: slightly irritant

Eye irritation: slightly irritant

## **12. Ecological information**

The product is biodegradable.

The product is not known as toxic or harmful the environment.

## **13. Disposal considerations**

Product: test for use in agriculture

Contaminated packaging: Contaminated packs they can be reused after being thoroughly cleaned.

## **14. Transport information**

ENTOMELA 75SL Is not classified as Dangerous or hazardous for transport under UN, IMO, ADR/RID or IATA/ICAO – regulations.

## 15. Regulatory information

Classification and labelling according to Regulation (EC) No 1272/2008:

**Hazard statements (because of the use with insecticides on bait application):**

**H317** May cause an allergic skin reaction (Cat. 1)
